Date: February 26 - 28, 2026

Location:

- **Oude Vismijn, Ghent Belgium**
- **Orsi Academy, Proefhoevestraat 12, 9090 Melle (BE)**

Dear sponsor,

We are pleased to invite you to the third edition of Orsi Innotech's Surgical AI & Telesurgery Days, taking place from February 26 to 28, 2026.

Following two highly successful editions, Orsi Innotech continues to lead the way in AI-driven surgical skill assessment and acts as a central hub for the development of tomorrow's surgical technologies. This annual event brings together a unique mix of surgeons, engineers, researchers, and industry leaders, offering a platform for knowledge exchange, innovation, and hands-on collaboration.

We warmly invite you to join us — or renew your partnership — and be part of this dynamic and future-focused community. Your continued support is key to the ongoing success of the Surgical AI Days.

We look forward to welcoming you (back) as a valued sponsor of the Surgical AI & Telesurgery Days 2026.

Warm regards,

Prof. Dr. Alexandre Mottrie

CEO Orsi Academy

Dr. Ir. Pieter De Backer

Surgical Artificial Intelligence Lead, Orsi Academy

Orsi Innotech's

Surgical AI & Telesurgery Days

Why Orsi Innotech?

Orsi Innotech is the pioneering innovation hub of Orsi Academy, located near Ghent, Belgium. We're all about bringing the latest innovations – like artificial intelligence (AI), augmented reality (AR) and computer vision – into the world of minimally invasive surgery.

From real-time organ recognition to smart surgical phase detection and live anonymization, our tools are designed to support surgeons before, during, and after every procedure. The goal? Safer surgeries and better patient outcomes.

In collaboration with leading institutions and tech partners, Orsi Innotech continuously pushes the boundaries of surgical innovation. The Surgical AI & Telesurgery Days are a testament to this vision, bringing together clinicians, researchers, and industry leaders to explore the frontiers of AI in surgery.

General information

Surgical AI & Telesurgery Days is a three-day event that blends the best of both worlds: high-level insights and hands-on experience. The first two days follow a conference format at Oude Vismijn with expert talks, panel discussions, live AI-assisted surgeries and an exhibition room focused on interaction with the attendees.

On day three, the action moves to Orsi Academy, where participants dive into hands-on workshops and interactive training sessions. It's where cutting-edge innovation meets real-world surgical practice.

Surgical AI & Telesurgery Days

Why attend?

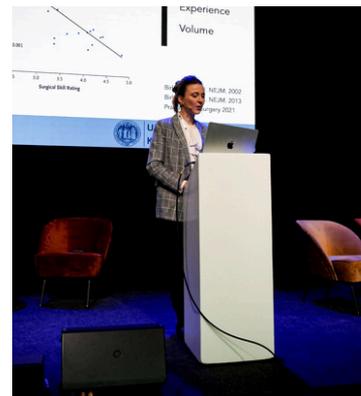

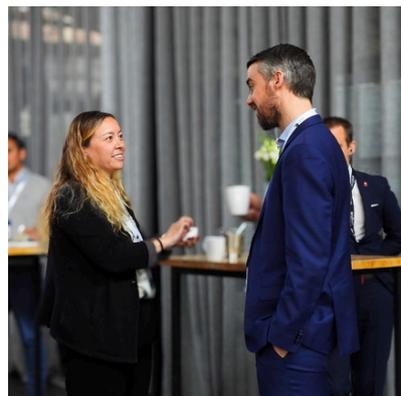

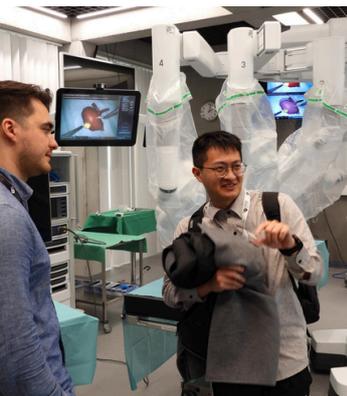

Surgical AI & Telesurgery Days isn't just another medical conference. As a sponsor or partner, you're not only supporting innovation, you're becoming part of the story.

Partnering with us means:

- Targeted exposure to a highly engaged audience of surgeons, researchers, engineers and medtech innovators.
- Brand presence during live AI-assisted surgeries: a rare opportunity to align with real-time clinical innovation.
- Direct networking in both conference and hands-on workshop settings.

Topics

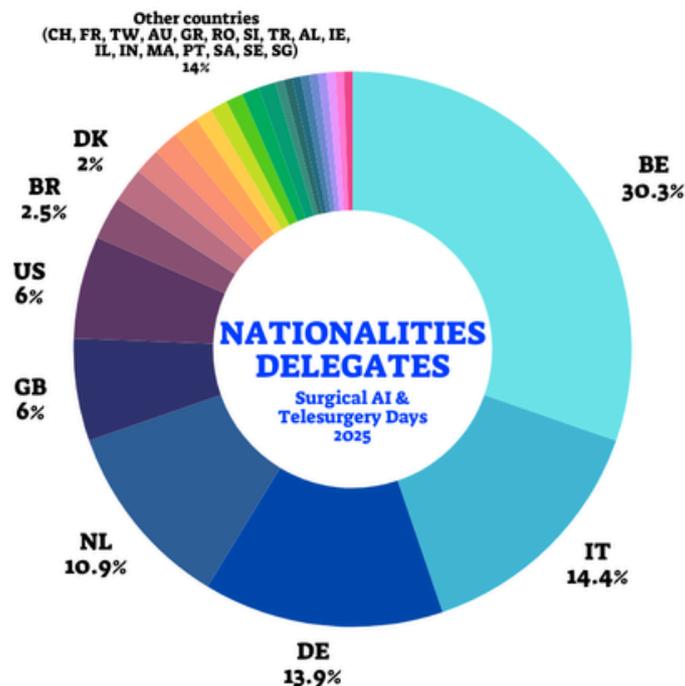

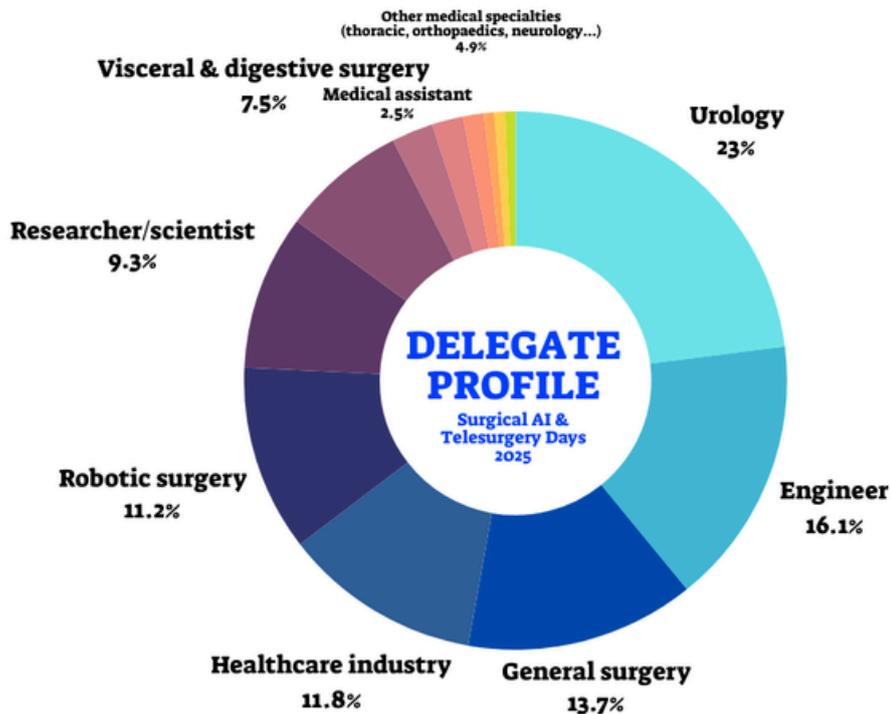

- AI in surgical decision-making & workflow guidance
- Augmented reality & real-time visualisation in the OR
- Telesurgery, teleproctoring & remote collaboration
- Surgical training in the era of AI & telesurgery
- What can we learn from AI in other industries?
- Ethics, privacy & regulation in surgical AI
